Vrsta objave:	Tender (all procedures)	CPV kodovi	90700000
---------------	-------------------------	------------	----------

---

Opis: Efficacy information and data are key to the assessment and sustainable use of plant protection products (PPP). Current efficacy data requirements and criteria for the assessment of plant protection products are stated in GB legislation. This project will establish if these efficacy data requirements currently applied in GB remain appropriate to assess possible future changes in application practice, such as used in precision technology. Additional information: All tender documents are available via the HSE In-Tend supplier e-procurement portal. All responses and requests for clarification must be submitted via the portal. Registration is free of charge and can be completed via the following link. <https://in-tendhost.co.uk/hse>
